

Individual Development Plan (IDP)

The **Army Career Tracker (ACT)** provides the framework to create an Individual Development Plan (IDP) combining experiences, training, education, and individualized interests. Creating an IDP allows users to track all aspects of their career using a standard template. Using the ACT IDP users have the ability to map out events, decision points and outcomes. A pathway to success is established to create short and long term goals. ACT allows users to measure their progress against known benchmarks.
