

# TRADOC Sustainable Strategic Path Focuses on 4 Organizational Outcomes...

## Achieve shared understanding through collaboration

Organization has achieved shared understanding through collaboration that improves cross-functional communication and increases organizational identity while reducing stove-pipes of information.

## Improve decision cycle effectiveness

An improved decision cycle that reduces time to decision while producing better decisions for more mission impact.

## Enhance mission and organizational performance

Enhanced mission and organizational performance by creating efficiency and reducing duplication of effort.

## Create agile learning organizations

Create agile learning organizations that produce value by using dynamic and iterative techniques, such as collaboration, faster design solutions, feedback, and change in order to create progressive learning and performance processes.

## Enabled by Effective KM Programs...

**People:** Those who create, organize, apply, and transfer knowledge, as well as the leaders who act on that knowledge

**Processes:** Collective processes used in an organization to accomplish the mission

## ...and viewed through the lenses of:

**Tools:** Information systems used to put knowledge products and services into organized frameworks.

**Organization:** The matrix in which people-processes-tools function to integrate individual learning, organizational learning strategies, and KM capabilities to contribute to a learning organization.
